SISTEMA GRONDAIA - NOR 120/Ø80

Il sistema NOR è progettato per il drenaggio del tetto di edifici residenziali di piccole e medie dimensioni e di piccole strutture industriali. E' resistente agli sbalzi di temperatura e ai raggi UV. Tutte le connessioni sono dotate di guarnizioni a tre fasce che garantiscono un'ottima tenuta all'acqua e un'adeguata compensazione delle espansioni termiche.

GUTTER SYSTEM - NOR 120/Ø80

System NOR is designed for roof drainage of small and medium-sized residential and for small industry buildings. It is resistant to extreme temperature fluctuations and to UV ray as well. All connections are equipped with three-band seals that ensure excellent water tightness and adequate balance of the thermal expansions. Easy and fast installation does not require glue application.
