## SISTEMA GRONDAIA - TOP 120/Ø80

Il sistema TOP è progettato per il drenaggio del tetto di edifici residenziali di piccole e medie dimensioni e di piccole strutture industriali.

È resistente agli sbalzi di temperatura e ai raggi UV. Tutte le connessioni sono dotate di guarnizioni a tre fasce che garantiscono un'ottima tenuta all'acqua e un'adeguata compensazione delle espansioni termiche.

L'installazione, facile e veloce, non richiede l'utilizzo di colla.

## GUTTER SYSTEM - TOP 120/Ø80

System TOP is designed for roof drainage of small and medium-sized residential and for small industry buildings.

It is resistant to extreme temperature fluctuations and to UV ray as well. All connections are equipped with three-band seals that ensure excellent water tightness and adequate balance of the thermal expansions. Easy and fast installation does not require glue application.
