

1 Utilizzo / Application

✦ **PRODOTTO** da Gruppo Stamplast,
 È indicato nella messa in squadra dei pannelli per armature orizzontali, verticali o inclinate. Dispone di un profilo ad U molto robusto ed è molto resistente alla compressione. La presenza di fori sui tre lati consente una penetrazione uniforme del calcestruzzo.

✦ **MANUFACTURED** by Gruppo Stamplast,
 It is suitable for squaring panels for horizontal, vertical or inclined reinforcement. It has a very robust U-profile and is very resistant to compression. The presence of holes on three sides allows uniform penetration of the concrete.
